# Pratik Devkota

📅 Born: 19 November 2002    ✉ pratikdevkota05@gmail.com    📞 +977 9862573304    ⌾ github.com/Pratik-1-11

## Profile

I am a passionate learner with a strong foundation in web and software development. I focus on building efficient, scalable, and user-friendly solutions across multiple platforms. My interests include software engineering, project management, and integrating modern technologies to create innovative applications that make a real-world impact.

## Education

| | |
|---|---|
| **Pokhara University** | *2022 – Running* |
| *Bachelor in Computer Information Systems (BCIS)* | |
| **Diploma in Civil Engineering (CTEVT)** | *2018 – 2021* |
| *Graduated with 65%* | |

## Technical Skills

**Frontend:** HTML, CSS, Bootstrap, Tailwind, React
**Backend:** PHP, Node.js, SQL
**Mobile:** React Native
**Programming Languages:** Java, JavaScript
**Other Skills:** Software Engineering, Project Management

## Projects

**Gym Management System** — *Core PHP, MySQL, Bootstrap, Tailwind*
- Developed a comprehensive management system with user and admin panels.
- Implemented ERP-like features for membership, billing, and schedule tracking.
- Built responsive UI/UX using Bootstrap and Tailwind.

**Sahara – Disaster Awareness and Alert System** — *React Native, Node.js, Express, SQL*
- Created an app for centralized disaster reporting and alert notifications.
- Designed real-time incident reporting and community alert mechanism.
- Focused on user accessibility and public awareness.

**Jhandi Burja Game (Nepali Traditional Dice Game)** — *HTML, CSS, JavaScript*
- Developed an interactive online version of Nepal's traditional dice game.
- Added betting and winnings logic with responsive design for mobile devices.

**Book Ecommerce Site** — *PHP, MySQL, React*
- Built a fully functional book store with search, cart, and checkout.
- Integrated backend APIs for inventory and order management.

## Additional Information

- Date of Birth: 2002-11-19
- Nationality: Nepali
- Passionate about blending engineering and technology for real-world problem solving.
- Interested in learning diverse fields and continuous self-improvement.
